Most opportunities for new graduates are located in Chicago, Illinois and Tempe, Arizona within the following business areas:

- Global Fund Services
- Hedge Fund Services
- Corporate Groups
- Enterprise Enablement

See inside for more.

Learn more about full time opportunities for new graduates:

Global Fund Services

Global Fund Services (GFS) works with investment managers to maximize client portfolio value using custom products and services that provide in-depth analyses of transactions, assets and funds based on client needs and requirements.

Opportunities typically available within the following areas:

- **Fund accounting** calculates net asset value for each client and provides customized reports at required frequencies while evaluating and reconciling mutual funds, benchmarks and co-mingled and collective funds.
- **Financial reporting** provides accurate, timely financial reports to support decision-making and management of client accounts while utilizing industry-leading technology to provide clients with custom, up-to-date account-specific information.
- **Transfer agency** responds to client/shareholder inquiries, disseminates shareholder information and maintains shareholder records and correspondence while complying with anti-money laundering procedures and other regulations.
- **Investment operations outsourcing** provides solutions for investment managers seeking greater scale and efficiency in their middle and back office operations through outsourcing their operations.

Hedge Fund Services

Hedge Fund Services (HFS) is a leading provider of middle and back office administration services to hedge funds and other organizations with complex assets and strategies. Opportunities typically available within the following areas:

- **Operations and asset servicing** handles daily processes and controls with clients for trade processing, asset servicing, valuation and cash management.
- **Fund accounting and investor servicing** provides periodic deliverables to clients and investors on net asset value calculation, financial/tax reporting and investor statements.

Corporate Groups

Corporate services groups are responsible for helping Northern Trust's internal employees deliver outstanding products and services to our clients by providing expert consulting around the operation of the company. Opportunities typically available within the following areas:

- **Audit** conducts audits throughout the company by assessing and validating effectiveness of business unit controls to ensure procedures and regulations are being followed to minimize financial loss.
- **Compliance** reviews, interprets and disseminates current proposed laws and regulations to provide consultation and advice to partners regarding compliance while minimizing risk.

Enterprise Enablement

Enterprise Enablement (E2) comprises multiple teams – from technology to operations to enterprise productivity and more. The combination of these teams into a single organization allows for better alignment with the needs of the business, and positions priorities to help the business become more efficient, nimble and profitable. Opportunities typically available within the following areas:

- **Pension fund accounting** looks after pension funds for numerous fund management clients by producing timely and accurate reports and accounts for a range of clients.
- **Alternative investment operations** is responsible for the time-sensitive processing or reconciliation of alternative asset set-up and trade activities by managing all related inquiries and exceptions and ensuring quality and productivity objectives are met.
- **Derivatives** handle and process transactions for trade capture, trade and cash settlements, reporting, valuations, trade and valuation reconciliation, set up and maintenance of static data, pricing and exception resolution.

What does Northern Trust look for when hiring new graduates?

Most of our full-time hires come from four-year undergraduate or five-year master of accounting programs. Candidates come from all fields of study, but have an interest in working for a leading financial institution.

Desired qualifications for all new graduates include:

- Ability to multi-task in a fast-paced environment with tight deadlines and easily adapt to change
- High standards of integrity, work ethic and confidentiality
- Strong verbal and written communication skills
- Analytical thinking, organizational and problem-solving skills
- Knowledge and interest in Northern Trust as well as the financial services industry

Who Is Northern Trust?

Northern Trust is a global financial services leader delivering innovative investment management, asset and fund administration, fiduciary and banking solutions to corporations, institutions, family offices and affluent individuals around the world. We deliver market-leading capabilities through exceptional employees and technology as we strive to be our clients' most trusted financial partner.
