

Northern Trust provides a wide range of financial and banking services for institutional clients worldwide. With a network of 2,800 staff and 18 offices around the world, we serve more than 1,800 institutional clients in more than 40 countries, including corporate and public pensions, not-for-profit institutions, industry associations and trade unions, local, state, and national governments and investment managers and fund sponsors.

Services provided include trust, custody, treasury, banking, and analytical/reporting services to help clients manage their assets. Beyond these, our Global Fund Services (GFS) group specializes in a number of additional services specific to the investment management community, including middle office operations outsourcing, fund accounting, fund administration, and transfer agency services.
